

Homeowner's Stormwater Management Workshop

All interested homeowners invited!

Attend this FREE educational workshop focusing on what you can do at your home to better manage stormwater, manage your home and lawn more sustainably, reduce pollution, and save money on maintenance.

Tuesday, August 4th

6:30pm

Edgewood Elementary School

7900 Woodridge Drive, Woodridge

Presenters:

John Erickson, Woodridge School District 68

Paul Cureton, P2C Design LLC

WOODRIDGE
SCHOOL DISTRICT 68

The recent projects undertaken by Woodridge School District 68 at Edgewood and Willow Creek Elementary Schools were funded, in part, under Section 319 of the Federal Clean Water Act Grant program. The Section 319 Grant, as it is commonly called, is available to local units of government and other organizations to protect water quality in Illinois. The grant pays up to 60% of the construction costs for projects that implement measures to improve water quality and educate the public on water quality issues.
